Since 2017 we are strongly focussing on the needs of our European clients. From that moment on, all our designs and developments arise from our head office in Belgium.

Getting our inspiration from trends and influences from around the world, we offer products that create a great look in everyday life and that stimulate times of happiness and

joy. We want to inspire people to create the kind of space at home that makes them feel comfortable, that stimulates their self-worthiness and that allows them to be themselves at their best. After all, a home is much more than just a collection of beautiful items, it's a true reflection of you, it's a place where life happens.

Salt&Pepper embodies a wide range of trendy must have home- and tableware items that people both like to own and want to share with their loved ones.

**CONTENTS**

## ORA

The Japanese sense of sophisticated and imperfect perfection is fully reflected in this Oriental inspired Ora collection. Ora is made of durable porcelain and is characterized by

a speckled pattern that was incorporated into the glaze. In addition, the soft pattern on the outside of the items is reminiscent of the ridges of a shell. The warm off-white color completes the picture.

## **PARIS**

With the double-walled items from the Paris collection you can enjoy your favourite drink for an extra long time. Because the glasses are made of borosilicate thermo glass, the glasses are resistant to both cold and warm liquids. Borosilicate glass is a strong

heat-resistant glass that weighs less than normal glassware, making the glass light and moreover extra strong. The stylish double-walled design provides an insulating layer, so that hot drinks stay hot for a longer time and cold drinks cold, without condensation.
